Setup for Labs

- NodeJS (I use version 14 because NG 12 currently demands it)
- IDE: Visual Studio Code (free) or IntelliJ WebStorm
- Chrome (or Chromium based)
- <https://github.com/L-X-T/buhlergroup>

Starter Kit

- Slides
- Labs
- & Book (Enterprise Angular)

Getting started

- Pull the repo <https://github.com/L-X-T/buhlergroup>
- Please get started with lab 00_getting_started
- Yarn (or npm i) and then Yarn start (or npm start)
- Take a closer look at the starter kit
- Optional: If you're using VSCode you may add the plugins mentioned
